

Message from President, Saraswati Group of Institutions

“Somewhere, something incredible is waiting to be known.”

Carl Sagan

There is never any point in life of a person where he can sit back and say “There is nothing more to learn.” The Journal is a platform for researchers & academicians to express their innovations & originality of thoughts.

It gives me great satisfaction that *Asian Journal of Oral Health & Allied Sciences (AJOHAS)* is progressing in its entire endeavor towards dissemination of scientific information worldwide. I am pleased to know that the Volume 10, Issue 1, January-June 2020 is ready to be published. I am also pleased to know that *Scientific Scholar* would be henceforth helping in the publication of this journal.

I congratulate all the editorial board members and authors for their contribution to this journal and wish *AJOHAS* a great success.

Dr. Rajat Mathur
President,
Saraswati Group of Institutions,
Lucknow, India.
